CAMCO STEALTH

For the Worksite. For the Weekend. For Life.

Introducing the Camco Stealth Canopy — a total game changer for tradies, fleets, and 4x4 enthusiasts across NZ.

Crafted from high-grade aluminium and packed with features, it's built to take a hammering Monday to Friday and still back you up on the weekend adventures.

Built to outlast your current rig.

When it's time to upgrade your ute, simply swap out the vehicle fitting kit — no need to buy a whole new canopy.

One serious investment. Years of hard use. Zero regrets.

Easy access. Maximum security.

- Push-button entry - open it with your finger, elbow, or whatever's free.
- Central locking + auto relock keeps your gear safe and your keys where they belong.
- Integrated with your vehicle's factory alarm (if fitted).
- Bright internal LED lighting included - find what you need, anytime.

Built like a service body. Because it is.

- Monocoque aluminium shell - rock-solid + lightweight.
- Ready to carry serious loads. Massive roof load rating for tools, racks, tents or toys.
- Supports a cantilevered roof tray - protects your cab and clears the way for more gear.
- Fully braced doors withstand high-wind environments - easy to open, even with full hands.
- Large water gutters + protected seals = leak-free, worry-free canopy.

Upgrade your Stealth.

Tougher. Smarter. Ready for anything. Customise your Stealth Canopy with these optional add-ons:

→ **Stealth Cantilever Roof Trays**

Maximise your carrying power. These heavy-duty trays make loading easy and keep the weight off your cab roof — perfect for tools, tents, or toys.

→ **Camco Drawer Systems**

Designed for strength, security, and smarter storage, Camco's drawer systems make it easy to organise your gear and access it safely and efficiently. With heavy-duty load capacities, smooth operation, and integrated safety features, our drawer solutions are built to perform—on the job site or off the beaten track.

→ **Interior Accessories**

Roof hung small parts storage keeps the floor clear. Tough and totally modular.

→ **Roof Rack Accessories**

More mounts. More options. More freedom. Add our ladder racks or conduit holders — whatever your next mission needs.

→ **Lighting Solutions**

Light up the outside of your rig with premium external lighting.

THE CANOPY THAT'S CHANGING THE GAME IN NZ
